

A Private Space to Release Modern People's Sin
一個釋放現代人罪孽的秘密地點

Confessing Booth

Three parts:

_1.Crisis Statement

_2.Research

_3.Concept Design

- _Second personality in cyberspace
- _Restriction by computer
- _Ceremony in Taiwan
- _Figure identification

1. Crisis Statement

- "which one is real me ? "

You have many opportunities to experience different life and act other characters in cyberspace. Internet provides new space to extend self. That situation result in the second personality.

That situation result in the second personality.

We do not go to church again.
We do internet access again and again.

We do not ask God anymore.
We do ask Google much more.

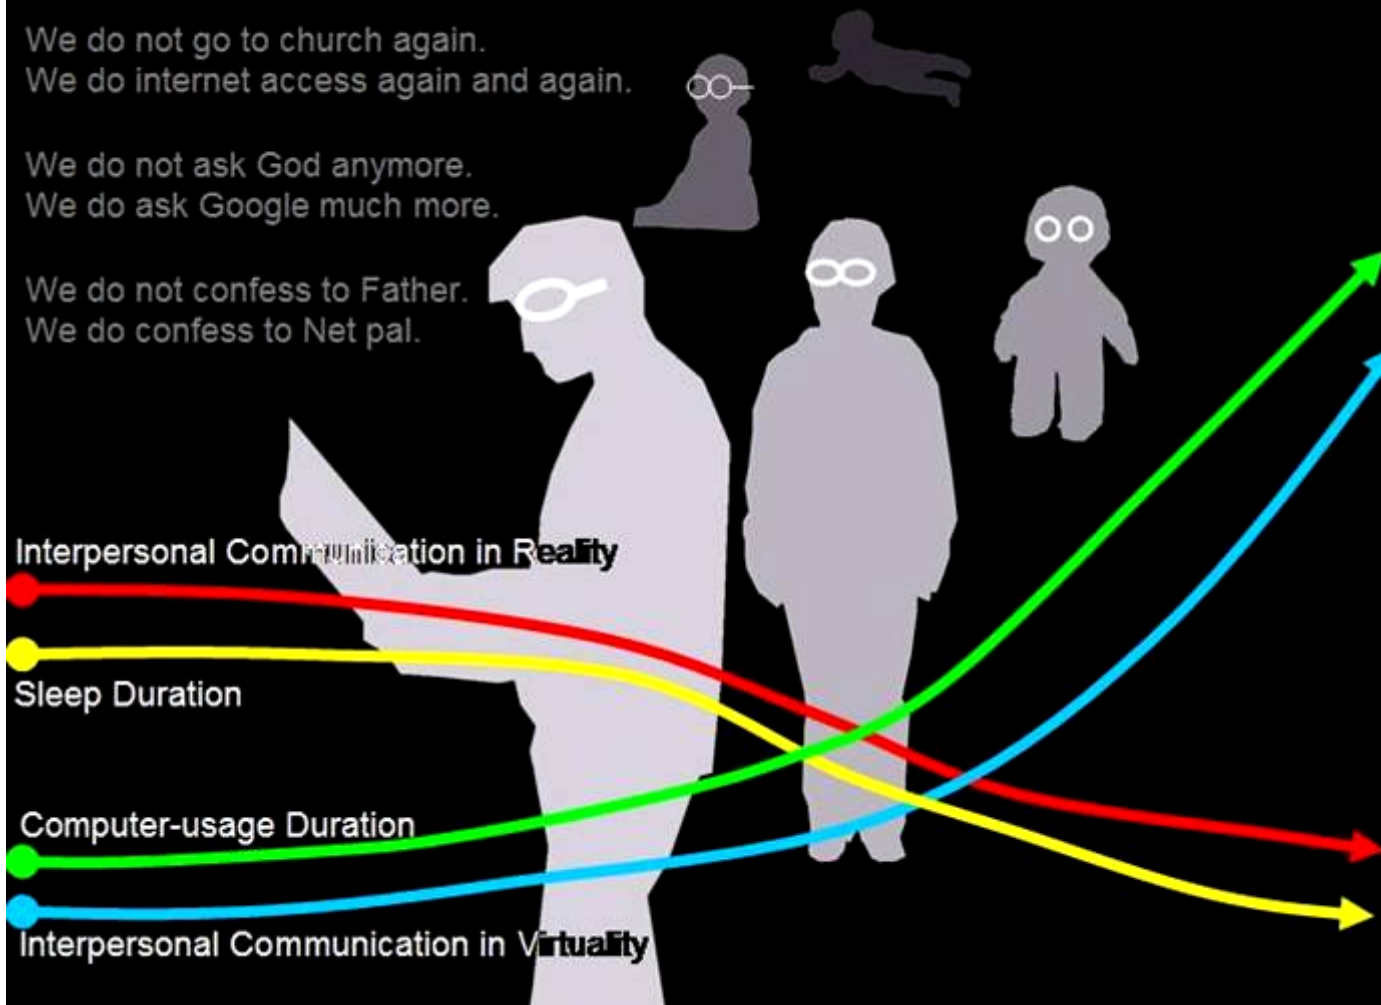

We do not confess to Father.
We do confess to Net pal.

Interpersonal Communication in Reality

Computer-usage Duration

Interpersonal Communication in Virtuality

The advent of informational technology should make us to have better quality of live, but in face, it do not.
When we used to deal with anything on line, we are already restricted by our computer.

A custom for the festivals

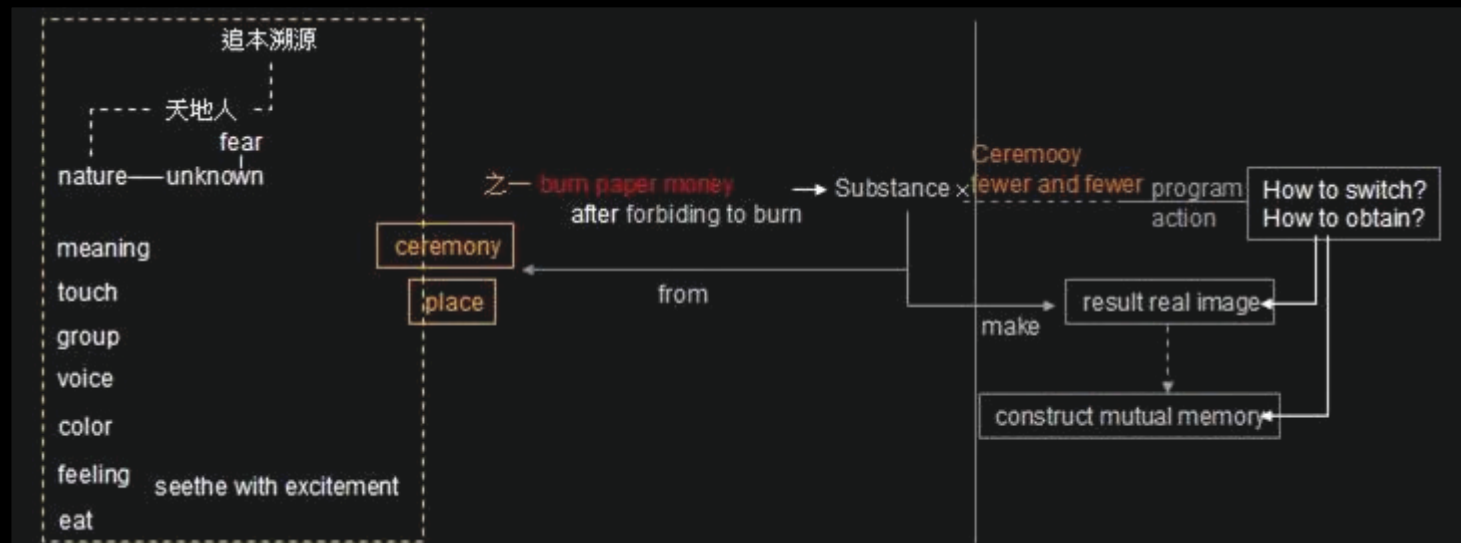

paper made to resemble money and burned as an offering to the dead

- Hot
- Dust fill the air
- Not comfortable

But
now the new law forbids burning the paper money.

to hand down the spirit of traditions
about clan, interpersonal relationship

- ceremony
- identify group
- comfort mind
- have peace of mind

Old → New

the traditions is
dissolve/die out

→ Switch/Transform

We need new way achieve the demand.

Physical

— Religion vs. Belief
— Scared World vs. Cyberspace

Social

— Individual vs. Group

Technology

— Religion vs. technology

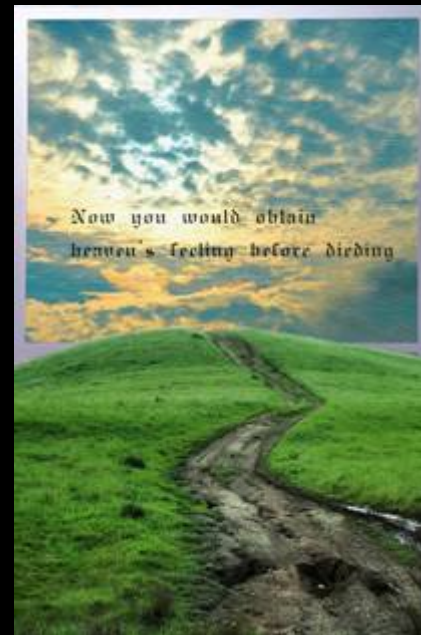

2. Research

“If you are willing to believe I am real, I am also willing to believe you are real.”

Cyberspace depends on all people's imagination. Only if other internet users continue to play these roles, the world will blossom forever.

“Bright but non-materialization, like a perfect mathematics equation. There are blue pyramid and red cube to store information. It is constructed by a data bank to create a new perfect city. Like as heaven”

Cyberspace is based by “information”. Like as comparing to the Garden of Eden, heaven is “knowledge” world.

Feng Shui [geomantic omen]

... rules in Taiwanese philosophy that govern spatial arrangement and orientation in relation to patterns of yin and yang and the flow of energy.

Location

The sky as a sickle

The road as a machete

Too strong or no wind

Entrance

The door faces another door.

The door faces the stairs.

Directly see your bed.

Interior

Anything across your bed

Directly watch a mirror.

The tap is in face of grill.

... Feng Shui is not only a environmental psychology, but also we believe in Feng Shui to gain happiness, avoid misfortune and find our spiritual sustenance.

Personal → Group

Personal:
_ the actives

to wear something (caps, gloves, glasses, etc.) to pray for ...
ex. for good luck

Personal → Group

Ex. Trend
_To be in (the) fashion

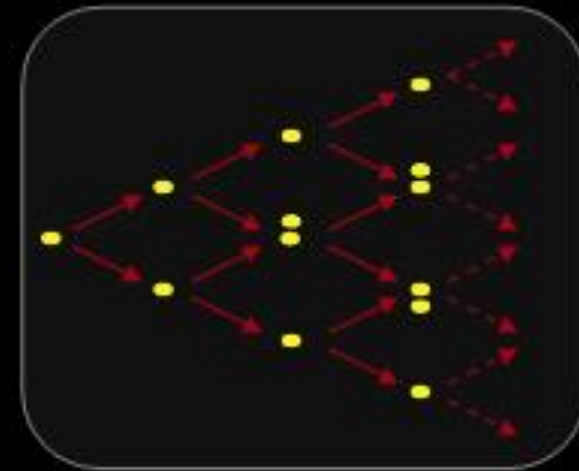

Values

ex. _ the concept about appreciating of the beauty

The Strength of influence

Action _ follow

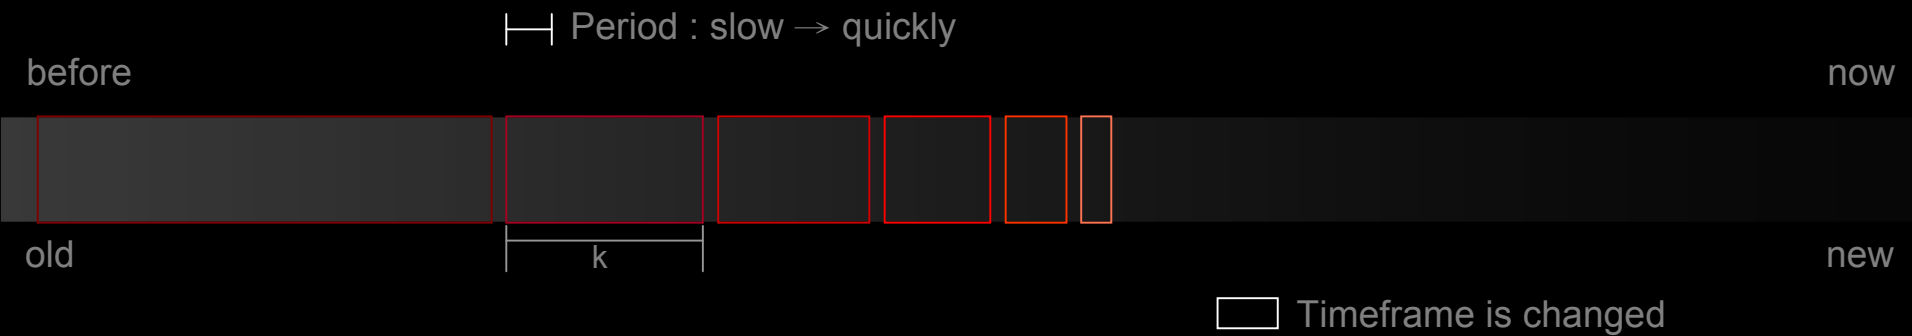

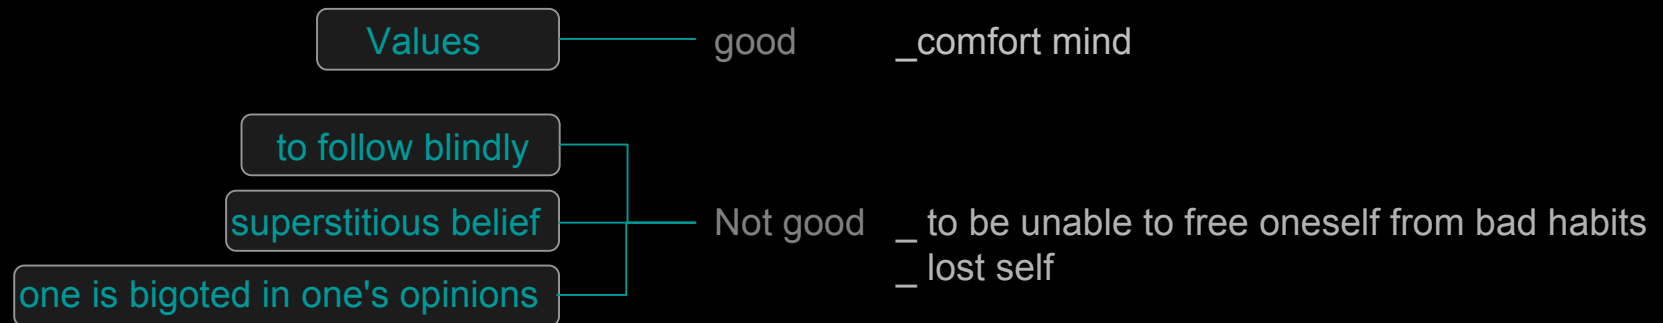

Phenomenon _ spread :

Something will has some effects on ...

Group:
_The appearance of things

Group have the influence stronger than one person, then one phenomenon will be spread one by one.
But the presupposition is that they all have the belief of that .

Personal → Group

Effect
_limitation of the period of validity

Then the effect is changed with time.

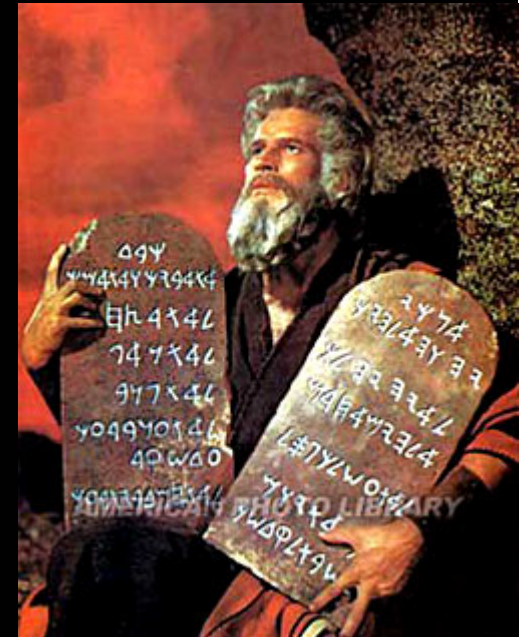

Googlism

The Church of Google

<http://www.thechurchofgoogle.org/>

- ✓ Google is all-knowing!
- ✓ Google is everywhere
- ✓ Google answers prayers
- ✓ Google is infinity
- ✓ Google remembers all

When we start to design, we have a brainstorming, and get some concepts.
Let's show some images about these concepts.

3. Brainstorming

No life I need. Computer can replace all life.

You pray to
something
Beaming
...

Do you ever
think about
what makes the
something
beaming...?

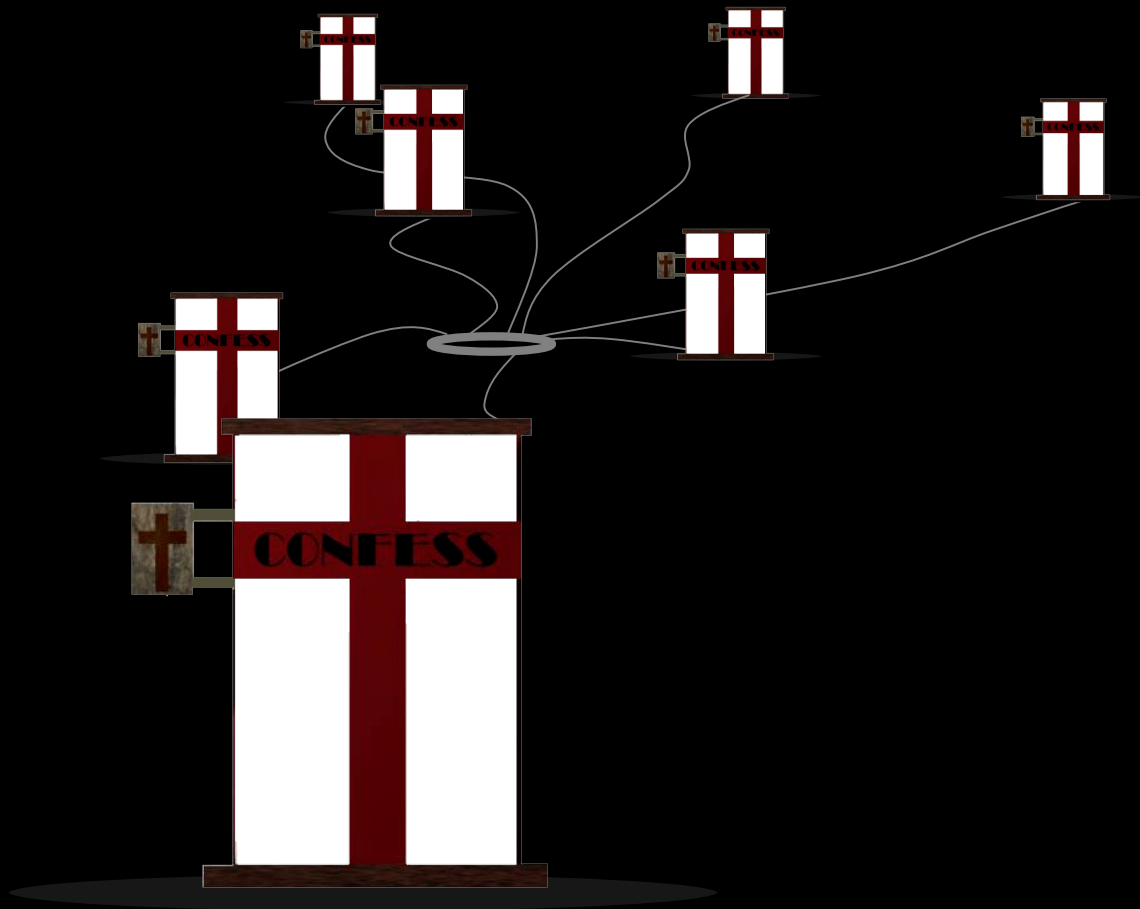

Listen the **Sound** from Outside

We try to be humorous to present the crisis, and design a confessing booth. The interesting design, just like traditional belief, can decrease modern people's sense of sin. It is also like internet, can connect other people to get the same conducts like traditional belief.

4. Concept Design

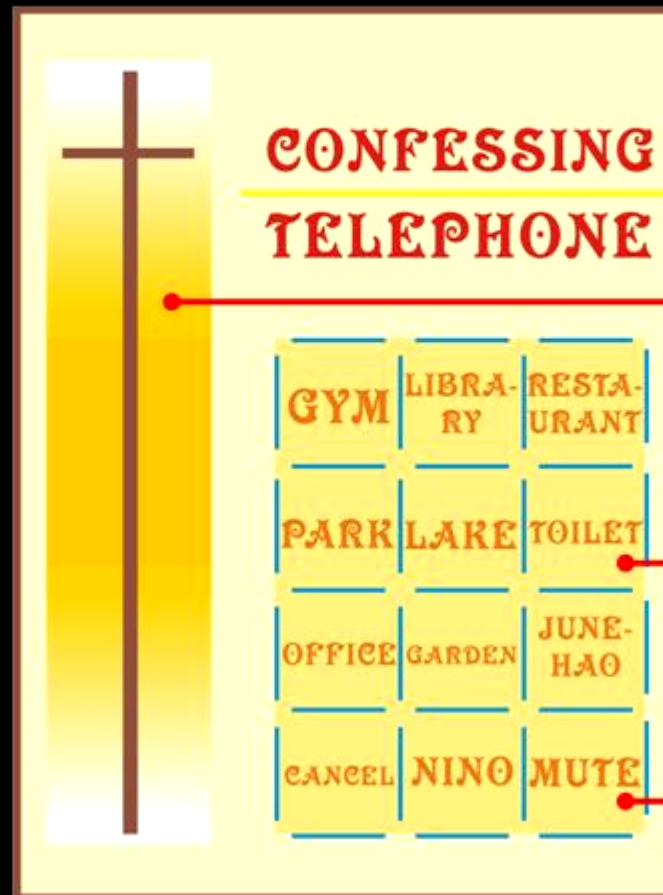

Showing
how many
people are
on line.

Beaming
colorful
buttons mean
someone
on line.

Dark
buttons
mean
no one
on line yet.

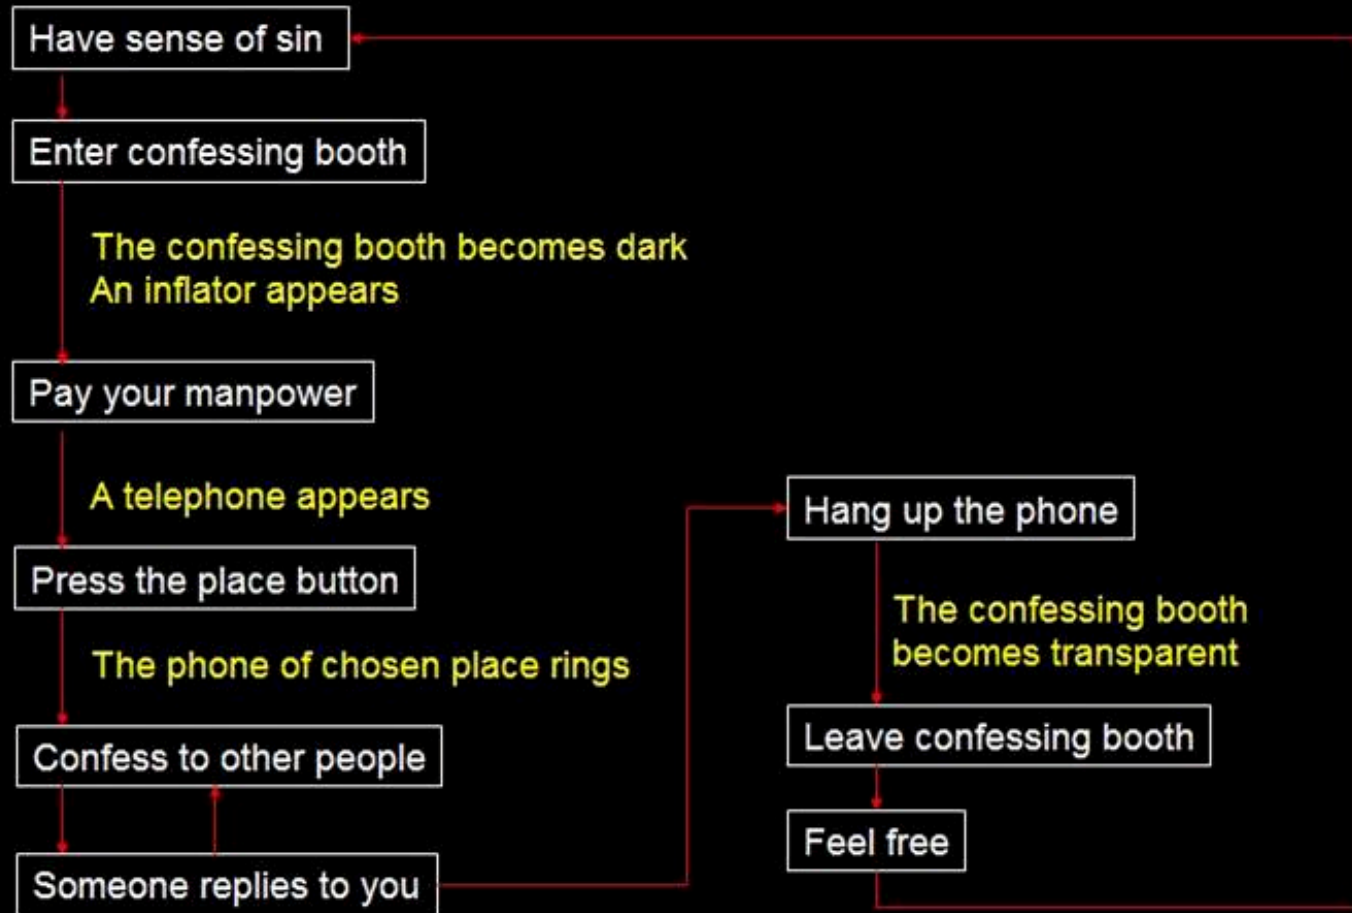

A megaphone

Show other
confessing
telephone's
place where
you want to
talk to.

If you do not
want to anyone
reply to you,
press it!

_Correspond to the Belief and Internet

		Design
Internet	A chat room	Booth
	You can do choosing	The surface
	Reveal information	The surface
	Link to others	One to Multi-User
Belief	A confession room	Booth
	Confess	Action
	Decrease sin	Pay your manpower

It must easily reach.
